Going Green...

A vintage-style illustration of a man and a woman having a picnic under a large, leafy tree. The man is sitting on the left, and the woman is on the right. They are surrounded by a picnic basket, a bottle, and various food items. The scene is idyllic and nostalgic.

ENJOY YOUR SUMMER

Choose your day, pack a large lunch, and set out into the country. A Green Rover Ticket will give you the freedom of the road, to stop where the fancy takes you or to explore your choice of 200 routes. The more energetic should equip themselves with a copy of Country Walks and follow one of the 20 pleasant routes, described in detail, and charted on an Ordnance Survey map.

GREEN ROVERS
and 12 additional 200 are available for use on the 1000-mile London Transport Green Rover system, starting at the London Transport Green Rover Office, 100 Strand, London WC2R 0DT. For more information, see the Green Rover Office at 100 Strand, London WC2R 0DT.

COUNTRY WALKS
are a series of 200 routes in London's country, each 2000-3000 yards long, starting at the London Transport Green Rover Office at 100 Strand, London WC2R 0DT. For more information, see the Green Rover Office at 100 Strand, London WC2R 0DT.
