# RAPE

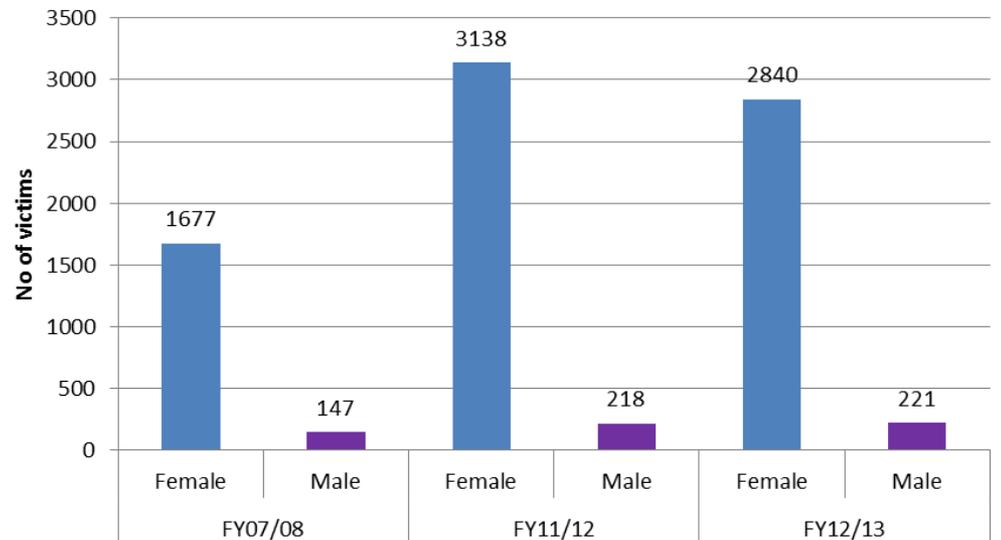

## Rape Offences

As can be seen the number of rape offences within the MPS has reduced slightly (-8.9%) in the most recent financial year. However this is still a significant increase, +59.7% from 5 years ago (FY07/08). Despite the significant increase in offences the number of sanction detections has not increased proportionately.

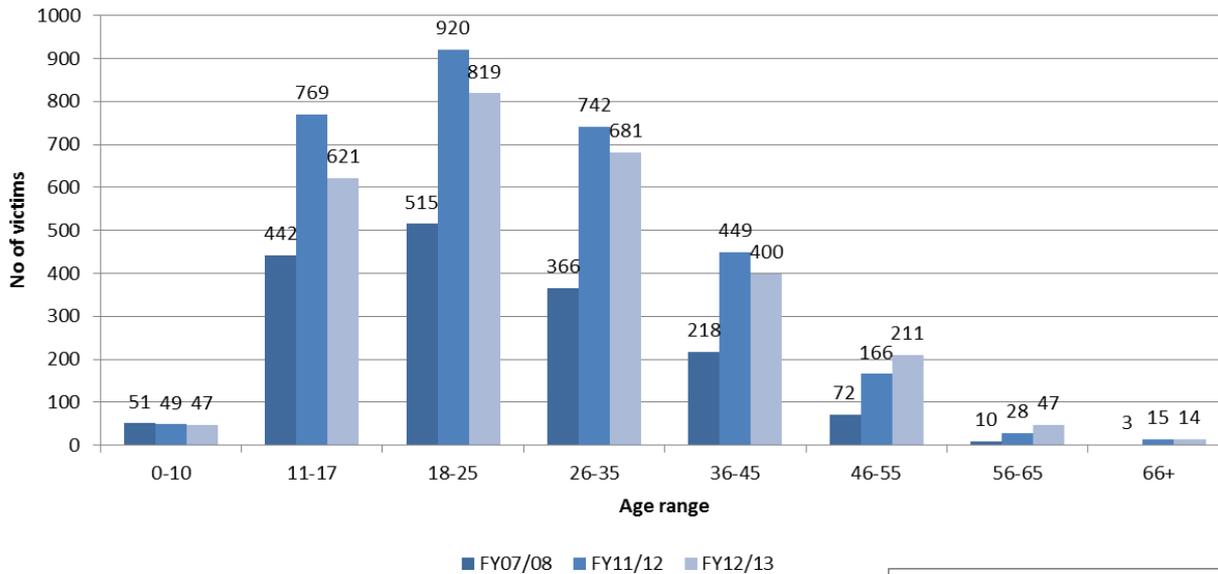

It is clear that the majority of victims are female.

## Rape Victims

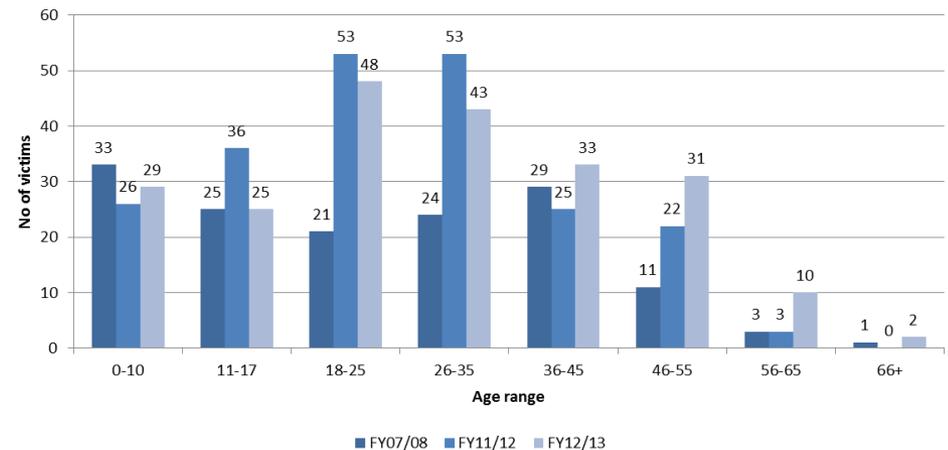

# RAPE VICTIMS

## Female Rape Victims

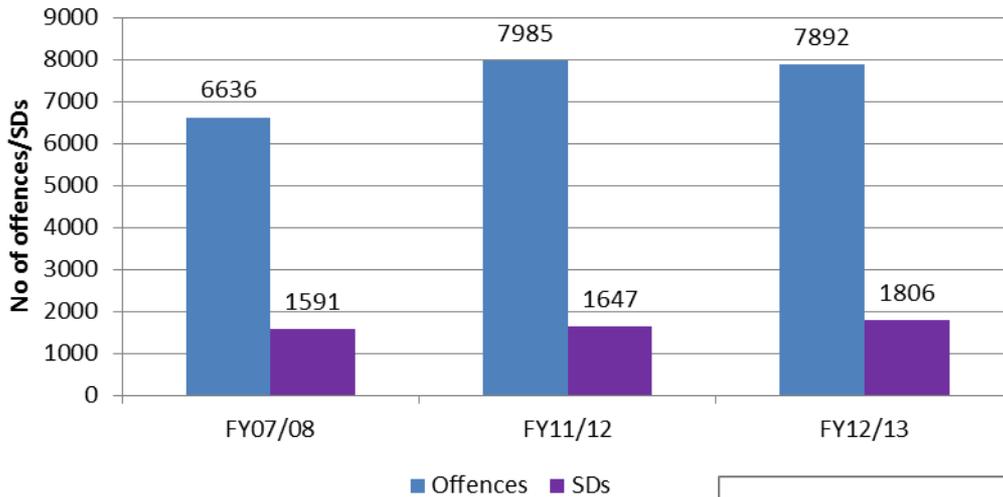

## Male Rape Victims

It is clear that the majority of victims are female and the highest age groups for females are 18-25 and 26-35. For males the highest age groups are also 18-25 and 26-35.

# SERIOUS SEXUAL OFFENCES

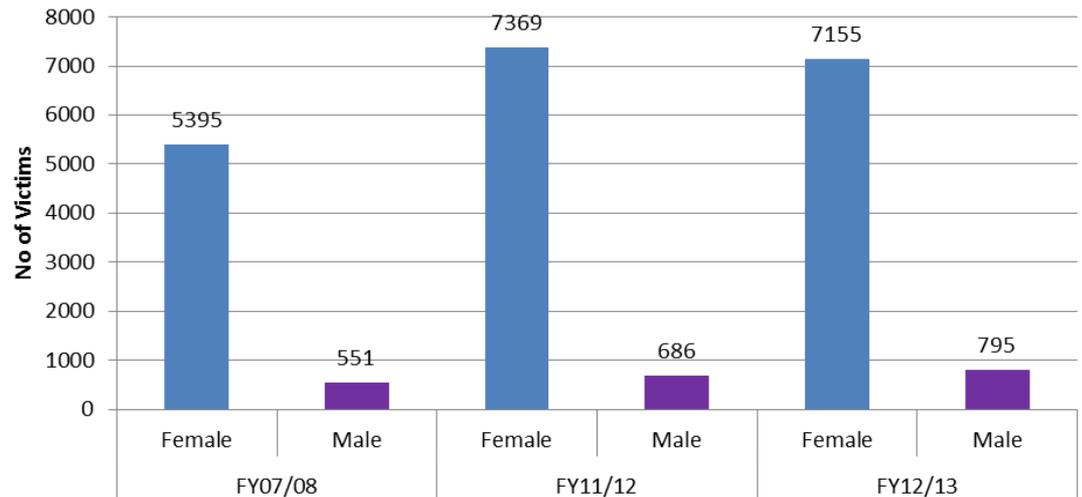

## SSO Offences

As can be seen the number of serious sexual offences within the MPS has reduced slightly (-1.2%) in the most recent financial year. However this is still a significant increase, +18.9% from 5 years ago (FY07/08). Despite the significant increase in offences the number of sanction detections have not increased as significantly.

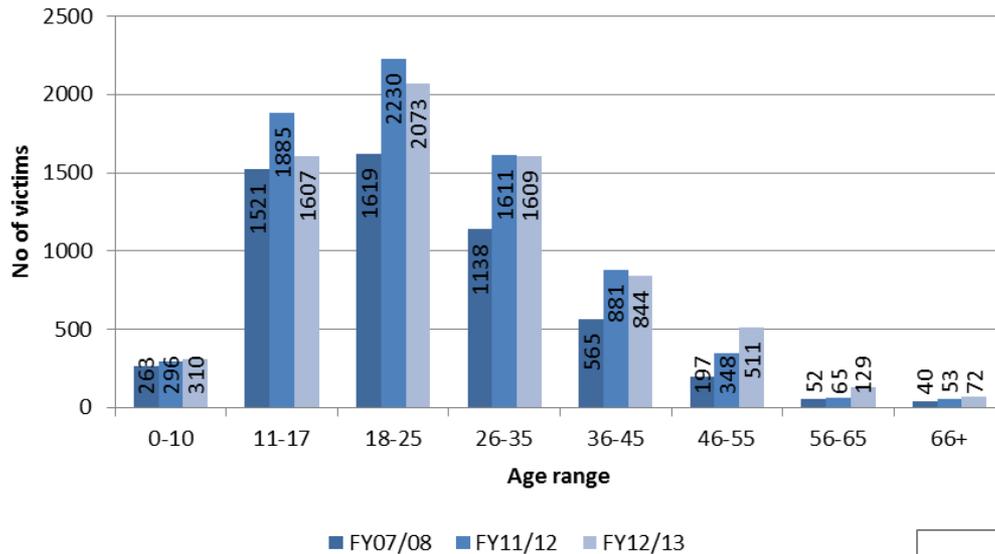

It is clear that the majority of serious sexual offence victims are female.

## SSO Victims

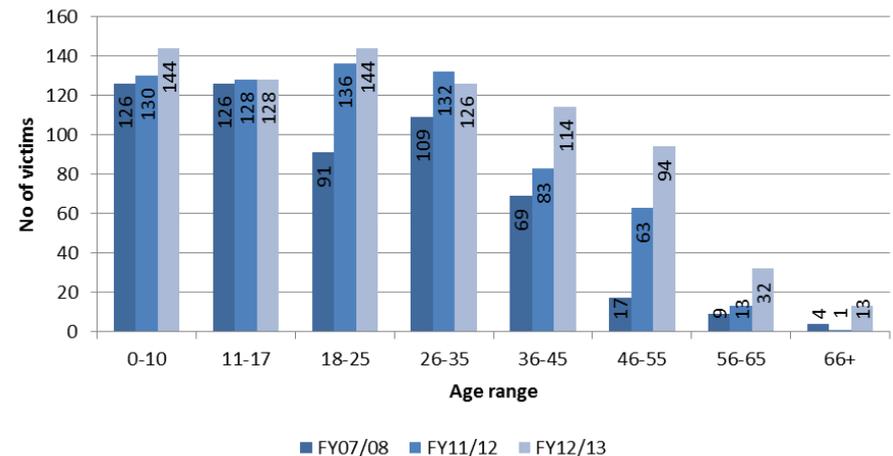

# SERIOUS SEXUAL OFFENCES

## Female SSO Victims

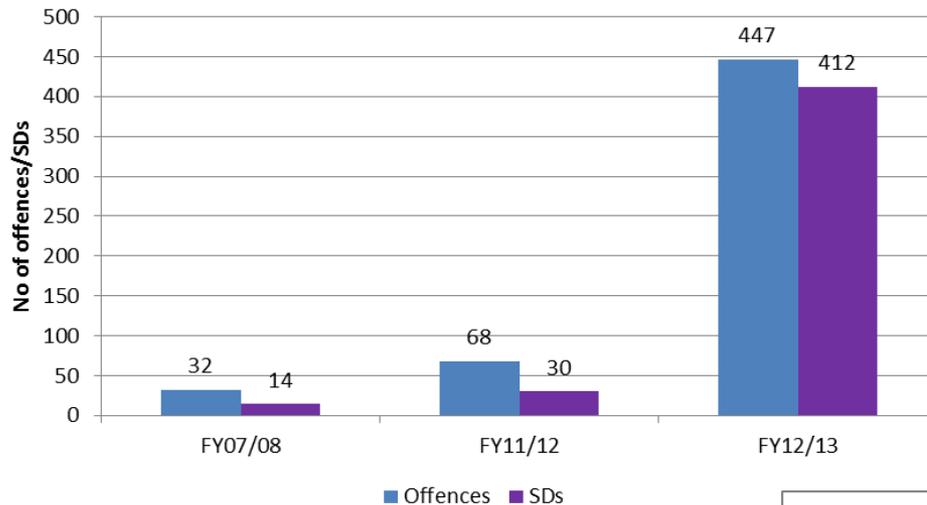

It is clear that the majority of serious sexual offence victims are female and the highest age groups are 11-17 and 18-25 for females. For males the highest age groups are 0-10 and 18-25.

## Male SSO Victims

# TRAFFICKING

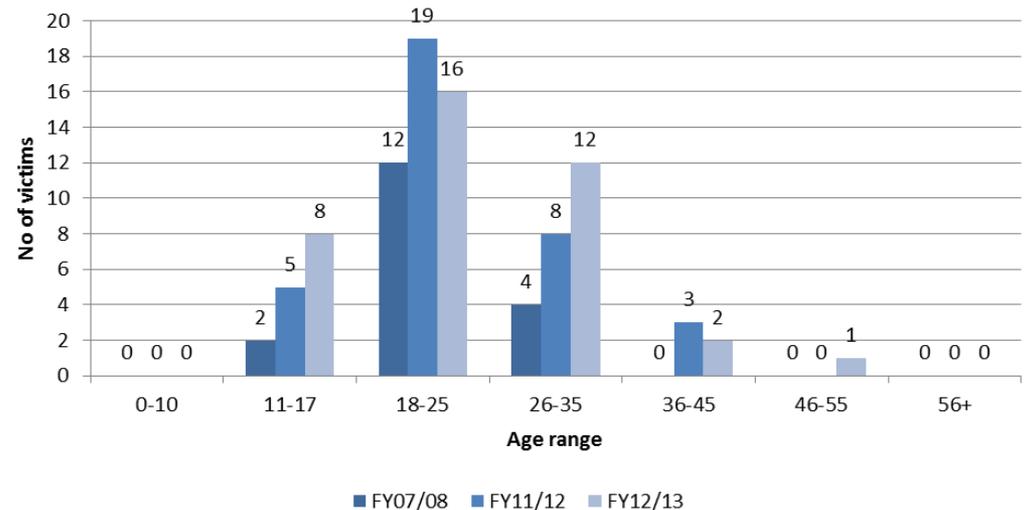

### Trafficking Offences

The number of trafficking offences within the MPS has increased significantly (+557.4%) in the most recent financial year, compared to the previous financial year. However, this volume relates to a 2 year investigation that was undertaken with the Polish authorities.

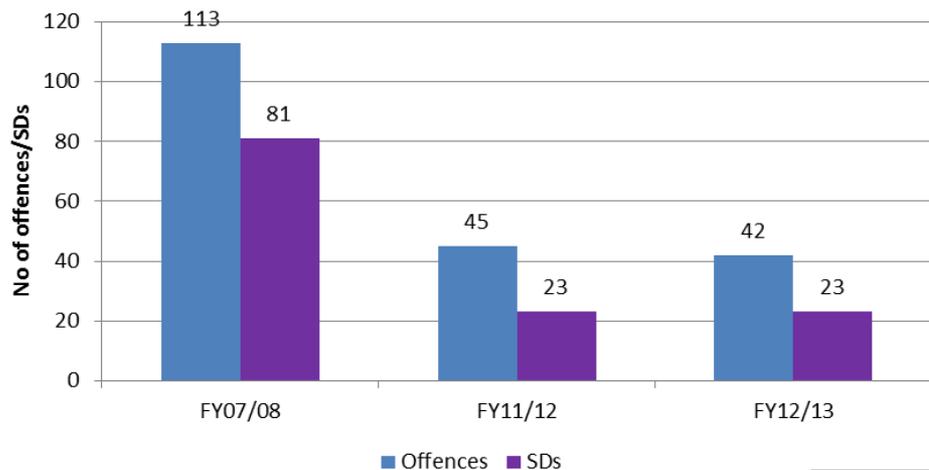

All of the trafficking victims are female and the highest age groups are 18-25 and 26-35.

### Female Trafficking Victims

# PROSTITUTION

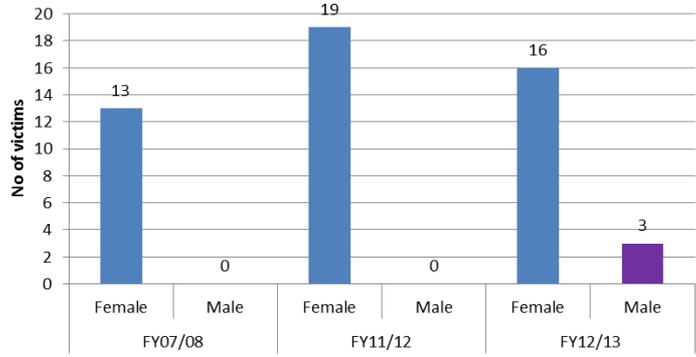

### Prostitution Offences

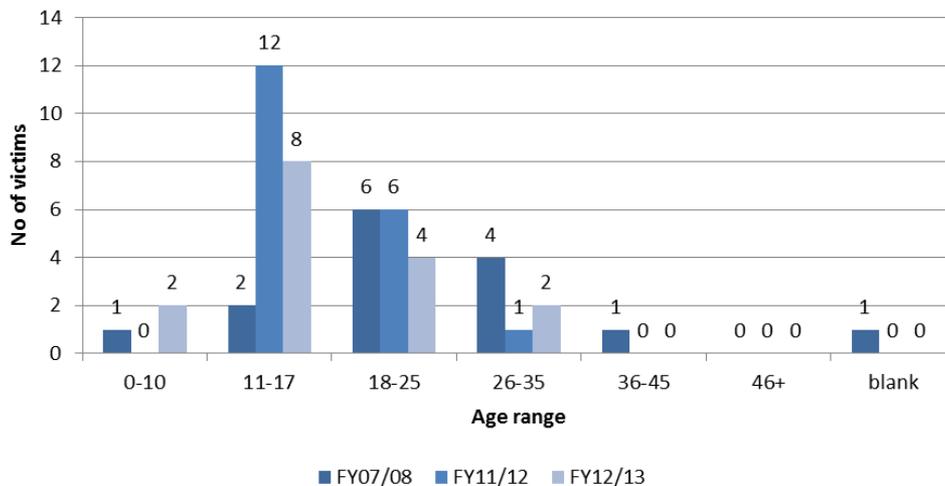

The number of prostitution offences within the MPS has reduced by -6.7% for the most recent financial year compared to the previous financial year. FY12/13 figures also show a significant reduction, -62.8% from 5 years ago (FY07/08).

The majority of prostitution offence victims are female and the highest age group is 11-17 (although the numbers are very small).

### Prostitution Victims

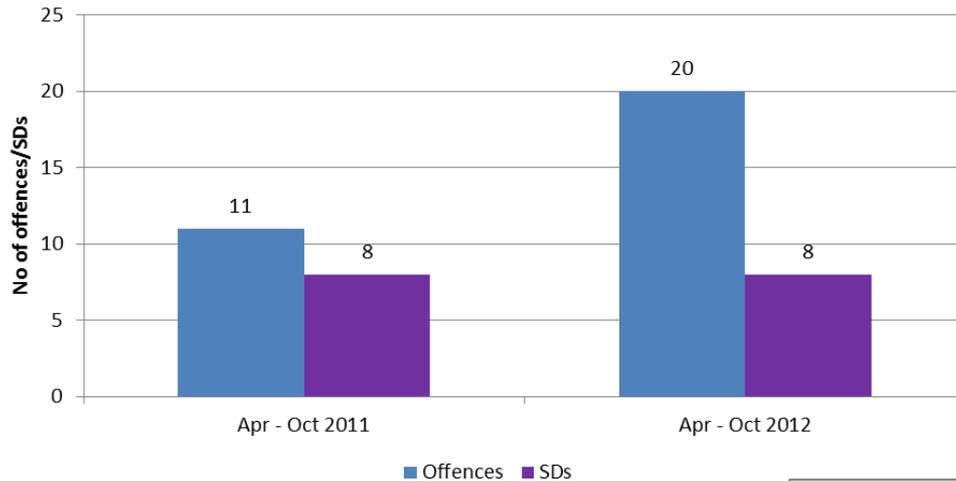

### Female Prostitution Victims

# GANG RELATED SERIOUS SEXUAL OFFENCES

## Gang Related Rape Offences

The number of gang related rape offences within the MPS has increased by +81.8% for the period Apr-Oct 12 compared to the same time period the previous year. The number of gang related serious sexual offences increased by +92.9% for the same time period.

## Gang related Serious Sexual Offences
