

Get kitted out for a warmer home Don't wait till winter

If you're a homeowner or private tenant on benefits or a low income you could get help to improve your home

Apply for Warmer Homes

How does it work?

1. The scheme's open to London homeowners or private tenants who are on benefits or low incomes. If that's you, apply at:
london.gov.uk/warmerhomes
2. We'll then send your application to our scheme managers, Happy Energy Solutions Ltd, who will assess it.
3. If you're successful, Happy Energy will survey your home to see what improvements can be made and talk them through with you.
4. Once you've made your mind up, a qualified installer will come round and do the work to the highest standard.

If successful, what could I get?

The Mayor's offering a range of free improvements to help make your home more comfortable and reduce your energy bills.

What you'll be offered depends on the outcome of your Happy Energy survey. Your home could receive:

- Roof insulation
- Cavity wall insulation
- External and internal wall insulation
- Floor insulation
- Draught proofing
- Boiler replacements and repairs
- First time central heating
- Improved heating controls
- Heating cylinder improvements
- Renewable energy systems
- Ventilation
