3. Award criteria and evaluation process

The Young Londoners Fund will be allocated through an open and competitive application process. There are two application forms – one for applications for small and medium grants and one for large grant applications. This application guidance is for applicants for large grants of more than £150,000 and up to £1.5million.

Only those applications passing the gateway criteria move to full assessment. All shortlisted large grant applicants will be interviewed

Part 1 of the application form comprises of gateway questions which ask for organisational information and confirmation of essential requirements for the Young Londoners Fund. Questions will be marked pass / fail or used for information only. Applicants will be advised at the end of this section if they can continue with their application.

Part 2 of the application form comprises of questions which give some initial information about the nature of your project and who it will be supporting. This part of the application will not be scored.

Part 3 of the application form comprises of scored questions which will be assessed using the scoring mechanism detailed below. We are not bound to accept any proposal and reserve the right to ask for clarification on bids through an interview process.

Assessment Area	Weighting	Section	Number of questions
Strength of rationale and evidence for proposal	25%	Section 5: Project Need	2 questions
Appropriateness and deliverability of activities	30%	Section 6: Project Activities	5 questions
Impact and value for money	20%	Section 7: Outputs and Outcomes Section 8: Finance	2 questions 2 questions
Capacity and Capability to deliver	25%	Section 9: Capacity and Capability	9 questions

Each of the above areas will be assessed question by question in accordance with the following criteria:

Score	Description
0: No response	No response
1: Unsatisfactory	No real evidence
2: Poor	Requirement not met and unacceptable

¹ pending satisfactory due diligence checks

Score	Description
3: Satisfactory	Not met exactly but acceptable
4: Good	Most aspects of requirement are met
5: Excellent	Meets requirement exactly

We are involving young people in our application scoring process. Young people will read your project summary, your key project information response, and score the following questions:

- Question 16 - How will you include young people's feedback and suggestions into the ongoing delivery of your project?
- Question 23 - Please detail examples of projects where you have worked with young people from your chosen cohort(s) and you have engaged young people in the design and delivery of these projects.

Please make sure that your answers to these questions can be understood on their own as young people will only see your project summary, your initial project information response and your response to these two questions.

After proposals have been assessed and scored against the assessment criteria, we will take into consideration the overall spread of proposals to be funded. The factors listed below will also be considered when making final decisions about which suite of projects are awarded funding:

- Specific target group demographics
- Geographical spread of delivery
- Scale and level of funding requested

4. The Application Form

You will be required to register on the online portal <https://gla.flexigrant.com> before beginning your application form.

After registering on the portal, you will be able to save your progress and return to your application at any time.

- A copy of your organisation's most recent audited accounts or accounts signed by an independent and qualified accountant
- Evidence of public and employer's liability insurance
